HIGH SCHOOL-ALL HALLOWS

GOOD GAME SCHEDULED FOR THIS AFTERNOON.

Elevens Have Heretofore Been Evenly Matched and the Battle Is Expected to Be a Royal One.

The High School and All Hallows College will play a match game at 2:30 o'clock this afternoon at Watker's field, and it promises to be a close and interesting contest. The two elevens have been the most evenly matched of any of the local leans for the last three years, and have always put up a good, swift game of football. The High School defeated the college three years ago by a score of \$10 o'; the college relaisted the next year and made the score \$4 to 0 in their favor, last year the High School came back at them and defeated them in two games by close scores. By the natural order of things the college should win this year, but the High School bays are going to do all they can to prevent such an occurrence. lege will play a match game at 2:30

all they can to prevent such an occurrence.

Both elevens had good practice yesterday afternoon. Work at All Hallows was light, but swift and clean. The practice consisted of signal work only. At the High School the regulars and the scrubs lined up for half an hour, and the work was productive of good results. The boys tackled ravenously, and got into the play with a vim and experites that showed they are in almost perfect form. The rest in almost perfect form. The rest since the Thunksgiving game has put siem on their pins again and they will doubtless put up as good a game today as they have played this season. The two teams will like up as follows:

## Proposition For a Big Baseball

Rocky Mountain states take as much interest in professional baseball as Ogden, they will next year be members of an interestate league. Prominent members of the Ogden association are taking up the matter and will, endeavor to interest the cities of Salt Lake, Grand Junction, Colorado Springs, Pueblo, Leadville, Aspen, Rawiins, Cripple Creek, Rock Springs, Cheyenne and Pocatello in the matter These, with Ogden, would make a twelve club league. Denver having linked her fortunes with the Western association, would, of course, not be considered. Another plan is to drop Docatello and confine the league to Colorado, Wyoming and Utah cities for an eight ciul league, the latter plan being thought more feasible and a better paying proposition. Already letters have been sent out to certain cities to feel the sentiment on the project.

The Young Nationals and the Wa-satch School teams had a content yes-terday afternoon which resulted in a victory for the former by a score of

physician this week, who has had experience in that kind of work and he pronounced the purillist in the very pink of condition, saying he was the finest specimen of physical manhood he had ever seen. Dutchey has been working hard for this, and it is repusted that Laind has been doing likewise and is aiso in excellent shape.

Dutchey says that he anticipates the hardest battle of his life tomorrow, and he has been in the business for twenty years. He says Lund will have an advantage over him of fifty-two pounds in weight and nearly eleven inches in height. Lund is six feet six inches in height, with Dutchey standing only five feet eight inches, the foring only five feet eight inches, the former weighing 129 and the intre-185.

For weeks, while avowedly anxious to dispose of the club to the best advantage because of the obstacles in the way of profitably maintaining a team here he has repeatedly said he would dispose of the team as a whole or not at all; that to sell the best players would ruin the team and make the remainder valueless. It is believed the deal with Pittsburg is as reported from here several days ago—a syndicate arrangement by which Pittsburg will be strengthened from Louisville, both teams remaining in the league and Dreyftess and his assistants having a considerable interest in both.

rectory-Income Report of Roads.

for the year enging time of the interpied by the statistician to the interstate commerce commission from the returns of operating railway companies, representing 185,245.80 miles of line received prior to Nov. 24, the following litems are taken:

The gross earnings of the railways embraced in this advance report were, for the year ending June 30, 1898, \$1, 20,723,484, or \$7,957 per mile of line. These earnings were assigned as passenger earnings, \$86,27,219; freight earnings, \$912,358,488; and other earnings from operation, \$23,687,677. The gross earnings shown in the report for 1888 were nearly \$60,000,000 less than this amount.

The operating expenses for the last fiscal year were \$852,425,105, or \$4,602 per mile of line. The net earnings, or income from operation, were \$454,825,139, an increase of \$21,007,304 being shown in this item for the year. Income from sources other than operation, amounting to \$49,176,168, was received by the railways metuded in the report. This amount, however, should not be accepted as clear income from investments to the railways as a whole, for the reason that a large portion of it was received as interest on railway bonds and dividends on railway stocks owned, and it is, therefore, largely offset in the aggregate deductions from income given in the form of interest and divided payments.

Would advise Utah horse-owners to dispose of their animals without dealing with these traders. The stockyards of Kamsas City and Omaha are open to them. The men who buy don't do any more than send to the stockyards and sell according to the market prices. Let Utah men ship their own horses and sell them. They can find agents in the east who will hustle purchasers if the market is shock and they cannot make the trip. I am seriain they will do better, than sending for low prices here.

Pleaded Guilty Before Judge Norrell and Asked That Sentence Be Pro-

Pat O'Conner yesterday was sentenced by Judge Norrell to eighteen months imprisonment in the state prison the charge of housebreaking.
O'Conner appeared before the court at 10 o'clock, and five minutes later he walked out of the court room to commence his term. The defendant, as soon as the information had been read, pleaded guilty, walved time and asked to be sentenced instanter. Accordingly, O'Conner was accommodated in short order and heaved an audible sigh of relief when judgment was announced. Ever since the convicted man came to Salt Lake two months ago he has been in trouble. Patrick had not been in the city two hours before he took umbrage at a knot of Italians in Frank Ambrose's saloon on State street—Patrick also took half a dozen paving blocks and bombarded the windows of the aforesaid saloon.

After he had served twenty days for his little eccentricity he once more fell into the hands of the officers on the charge of vagrancy. Asother sojourn in the city jail was the sequel. O'Conner had not been liberated five hours ere he was arrested in a "wine room" in the Klondike saloon with a bundle of stolen clothing in his possession.

It was for the crime of stealing two pairs of trousers and a coat and vest from a boarder's room in Ford's hotel that the Irishman was sentenced to-day.
